

All-in-One 2 LED Screen

KMT110MP12 KMT136MP12
KMT165MP18 KMT220MP12

The smart LED display system offers a complete solution to visualize your business.

KMT all-in-one LED screen is a complete commercial LED display solution that is developed and enhanced by KMT, which is integrated with cutting-edge LED technology, and smart conferencing system, and latest handy Andriod operating system. It is widely used in business conference rooms, mobile presentation.

Smart LED display conferencing system

Takes on a brand new presentation

It is an ultimate showcase of modern technology integrated with functions of PC terminal, wired cast, whiteboard, remote connection, television&stereo system.

High-precision, multi-point handwriting input on screen

Give you a real experience of free, casual handwriting without paper.

Handwriting input using 1mm pen point, multi-point input recognition and intelligent recognitions done by individual gestures or habits, like deletion, zoom in/out, moving/copying, or drifting, which are common actions seen using mouse on PC.

Hand gestures Inspire more from

Handwriting input on the screen frees the mind limitation, makes thinking visible and quick. Only one stroke of gesture to remove, enlarge or zoom in the screen area, and other ogesture operation.

Multi-point input

Zoom-in pinch to drag

Choose and paste

Deletion gesture

One-click wireless cast Share in no time

More compatibility with software and peripheral devices like PC and mobile terminals, which make every presentation smooth, convenient, and time-efficient.

Fast screen cast

Reciprocal control made over both terminal ends

The wireless cast transfers fast whatever media content, video or documents, through local protocol. It needs no internet connection. You can connect the screen through the cast device by your portable notebook, to deliver a presentation any time you want.

Wired VS Wireless cast

	Wireless cast	Screen cast software	HDMI cable
Protocol/Medium	Transmitter&receiver	Hotspot signal	Wireless signal
Results	Immediate effect, stable signal, no internet connection, transmission <12m	Transmission speed depending on signal strength and content size	Transmission stable, complicated wiring arrangement, inconvenient to use
Content	Audio&video	Video	Audio&video
Inverse control	Support	N/A	N/A

Up to four screen split

Real-time sharing and interaction

As many as four windows split on the screen to show various, separate content, and to make information sharing more freely.

Mobile phone as Microphone

Deliver any speech without extra devices

Working the mobile phone as temporary microphone or camera, and uploading recorded content onto the screen library base.

Start camera

Tap&Talk

Varied interfaces

Meet demand on many scenes

Rich interfaces meet different occasions and environments, extending meeting to any other places when necessary, by linking PC, led screen, wireless cast device together in a time-efficient way.

USB 2.0

RJ45

HDMI 2.0

Presentation

Multiple Empowerment

Versatile tools to make office work easy

Remote meeting

Easy switch between multiple scenes

Peripheral camera integrated with wireless microphone can be used to host remote meetings from different places, to have remote screen in cascade to desktop, or online activity.

Interaction on remote sites

Desktop sharing

Screen input in sync

Online annotation

Best performance

High definition and anti-glare Guarantee clear picture

With 4K picture quality and thin rims, the screen bring to audience a special, immerisive visual experience. Even under strong light, the anti-glare screen gives clear and crystal pictures, without leaving out any detail.

4K

Anti-glare

Editable screen

Robust dual OS performance

Get most of the business

Android 6.0 version or dual OS (Android 6.0 + Windows 10) is optional to run on the screen, within which tons of Apps are ready to meet your demand.

OPS specifications

CPU: Intel® Core™

i3 processor

4G RAM + 128G SSD

CPU: Intel® Core™

i5 processor

8G RAM + 128G SSD

CPU: Intel® Core™

i7 processor

16G RAM + 256G SSD

Rich interface extension

Create perfect meeting scenarios

With externally connected driver-free camera integrated with microphone, and built-in 3D stereo system, it breaks space barrier and into one sharing zone.

Screens in cascade widens visual experience and business area

Dual screen connected in parallel makes users feel immersive, and therefore enhances conference effect; while the regular single screen is not able to present clear or just part of content because of the small screen size when the screen is cast.

4K Camera
(Integrated with wireless microphone)

Dedicated desgin

Comfortable feel and new experience

Simplified user interface makes zero-cost learning curve. Rounded corners of the screen frame are protective from any collision. Also, to keep things tidy, smart pen pointer is considered enshrined in the pouch.

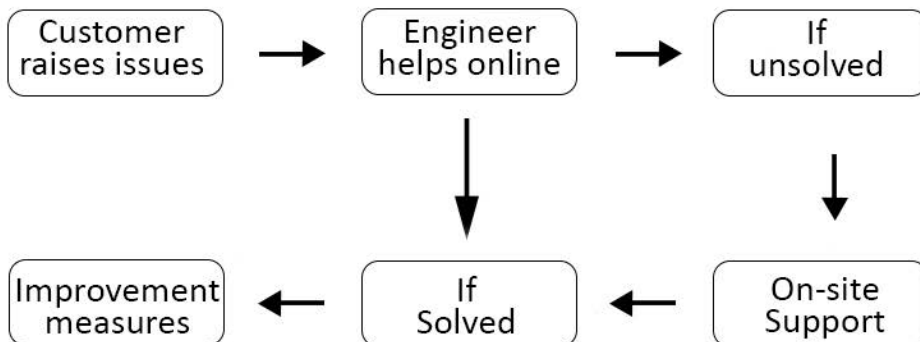

- ◆ High level ingress protection ratings: waterproof, anti-collision, anti-dust, anti-moisture, etc; flat screen surface easy for cleaning; even ink color distribution on modules

Wall-mount
(solid construct)

Free standing floor mount

◆ Wall surface mount: quick and easy, full front service; lightweight and thin

◆ Floor stand mount: mobile stable frame, easy install, with lockable wheels

Accessories(Optional)

Specifications

Product model	KMT110MP12		
OS	Android 6.0/WIN10+Android 6.0		
Recommended specifications	4-core CPU/MaliT820(GPU)/3G RAM/16G ROM (Expandable)		
Screen size	110 inch		
Screen resolution	1920*1080		
Visible area	2400mmx1350mm		
Brightness	300-500cd/m ² (adjustable up to 8 levels)		
Contrast ratio	5000:1		
Grayscale	14bit		
Refresh rate	3840Hz		
Viewing angle	140°(H) /140°(V)		
Response time	≤0.5ms (Typ)		
Video input interface	HDMIx3 (2 in/1 out), USB3.0x1, USB2.0x2		
RFx1 audio device	Built-in speakers 2x10W; external audio interface x1		
Interface/terminal for control	RJ45x1, TOUCH-USBx1, Bluetooth, WIFI, IR remote control		
Input voltage	100-240V, 50/60Hz		
Power consumption	≤840W (avg.)/≤1600W (peak)		
Dimension	2450mmx1500mmx52mm (mobile frame not included)		
Gross weight	Floor stand mount: 215kg		
Installation	Wall mount bracket (default)/Mobile frame with casters (optional)		
Storage temp.	-20°C ~ 60°C		
Working temp.	-10°C ~ 40°C		
Working humidity	10% ~ 90%RH		
Life span	≥100000 hours		
Accessories	Wall mount bracket	1 suite	Spare components (optional) 2 PCS
	Wireless cast device	1 set	HDMI cable (optional) 1 PCS
	IR remote control	1 PCS	Tool for installation (optional) 1 set
